Profile Summary

MERN Stack Developer with experience building full-stack web applications, REST APIs, authentication systems, and AI-powered platforms using React.js, Node.js, Express.js, and MongoDB. Hands-on exposure to JWT authentication, Redis caching, CI/CD, AWS deployment, and client-focused solution development.

Technical Skills

Languages:	JavaScript (ES6+), Java, Python
Frontend:	React.js, HTML5, CSS3, Tailwind CSS, Sass, GSAP, React Router, Context API
Backend:	Node.js, Express.js, REST APIs, JWT, Middleware, Microservices
Databases:	MongoDB, PostgreSQL, Redis
Tools:	Git, GitHub, Postman, Docker, Vercel
Cloud / DevOps:	AWS (EC2, S3), GitHub Actions, CI/CD
Concepts:	Authentication, API Integration, Responsive Design, MVC Architecture, DSA

Experience

MERN Stack Developer Intern Quest Digiflex Private Limited	Dec 2025 – Present Indore, India
---	--

- Built and maintained scalable REST APIs using Node.js, Express.js, and MongoDB; implemented Redis caching and documented APIs using Postman.
- Designed secure JWT-based authentication with refresh token logic, validation middleware, CORS handling, and centralized error management.
- Automated CI/CD workflows using GitHub Actions and collaborated in an Agile/Scrum development environment.

Founder / Full Stack Solutions Developer CodeWine Innovation	2025 – Present Indore, India
---	--

- Designed and contributed to client-oriented web solutions for local businesses based on real-world operational and customer acquisition needs.
- Built responsive websites/web applications to improve digital visibility, usability, and service accessibility.
- Worked on automation workflows using n8n, including requirement analysis, solution scoping, and implementation planning.

Projects

AI Interview & Resume Analyzer	<i>React.js, Node.js, Express.js, MongoDB, Gemini AI, Puppeteer</i>
---	---

- Built a full-stack GenAI job preparation platform with JWT authentication, resume upload, AI-generated interview reports, and persistent report history.
- Integrated Gemini AI with structured validation for resume analysis and generated ATS-friendly resume PDFs dynamically using Puppeteer.

Cohort Online Marketplace	<i>Node.js, Express.js, MongoDB, REST APIs, Swagger</i>
----------------------------------	---

- Developed a backend-driven e-commerce platform with modular architecture, product workflows, and documented REST APIs for scalable client-server communication.
- Structured the application using clean routing, controller separation, and maintainable backend design patterns.

Education

Bachelor of Technology in Computer Science Medicaps University	2022 – Jun 2026 Indore, Madhya Pradesh
---	--

CGPA: 6.8/10
