SUMMARY

Results-driven B.Tech Computer Science student with expertise in full-stack web development, specializing in the MERN stack, React.js, and Next.js. Proficient in UI/UX design and version control with Git & GitHub. Proven track record of developing user-centric applications, including an ATS-friendly resume builder and an online hotel booking platform. Seeking to apply strong problem-solving and technical skills in a challenging web development role.

EXPERIENCE

Intern *Google AI/ML Summer Internship* | Jun 2025 - Jul 2025

- Gained hands-on experience in AI/ML concepts by developing and deploying applications like a 'Plant Disease Tracker' and a 'Real-time Object Detection App' using Google Colab, TensorFlow, and Keras.
- Earned multiple Google Developer badges in TensorFlow, Image Classification, and Object Detection.

Technical Executive *ACM Student Chapter at Medicaps University* | Indore, India | August 2023 - August 2023

- Collaborated on a web application for a college event, ensuring the UI/UX met at least 80% of user expectations.
 - Actively participated in the Smart India Hackathon with the club's team and managed multiple technical events.
-

PROJECT

Trekinn (Full-Stack Hotel Booking Application) | June 2025 – August 2025

- Created a full-stack web application for seamless online hotel booking using Express.js, EJS, MongoDB, and Node.js.
- Managed the entire development lifecycle, from planning and design to backend, frontend, and database integration.

ATS-Friendly Resume Builder | January 2025 - May 2025

- Developed and launched an ATS-friendly resume builder as a college minor project, resulting in a 90% improvement in resume screening compatibility for users.
- Designed a user-friendly interface with customizable templates to help users create professional, keyword-optimized resumes aligned with industry standards.

Let's Talk (Mental Health Platform) | September 2024 - September 2024

- Developed a mental health support platform during a national-level hackathon, focusing on anonymous journaling, a chatbot, and helpline access.
 - Responsible for building an interactive and animated frontend using HTML, CSS, JavaScript, and GSAP, contributing to the team's 5th-place finish among numerous competitors.
-

EDUCATION

Bachelor of Technology in Computer Science & Engineering | Medicaps University, Indore

- *Expected Graduation: 2026*

- *CGPA: 7.47/10*

Higher Secondary Education (Class 12) | Gurukul School, Dhamnod

- *Year: 2022*
- *Percentage: 74.60%*

Senior Secondary Education (Class 10) | Lions Jr College, Manawar

- *Year: 2020*
 - *Percentage: 75.00%*
-
